1. Purpose

This Corporate Structure & Entity Register sets out, openly and in full, the legal entities through which NovaLink — the technology and product provider — operates. It exists so that participants of the Community Platforms it serves, Node Operators, enterprise customers, distributors, partners, regulators and counsel can see exactly which entity is responsible for which part of the business. Transparency about corporate structure is a deliberate choice: a network that asks people to host infrastructure in their homes should be equally clear about who stands behind it.

2. The NovaLink entities at a glance

NovaLink is the technology and product brand that serves independent Community Platforms, each operated by its own Community Operator (see Section 6) — currently NodeLink BVI and HubLink Ltd, with further community platforms able to be added over time. Each Community Operator publishes its own core agreements (terms and conditions, participation and rewards agreements, privacy policy) on its own platform; participants contract with their Community Operator. NovaLink itself operates through three entities:

Entity	Jurisdiction	Role
Ntech Link Technologies Ltd (Co. No. 2195904)	British Virgin Islands	Store Operator — operates the NovaLink Store e-commerce platform and payment processing; seller of record for the Nx1/Hx1 Home Station
NodeLink USA, Inc.	Delaware, United States	US distribution and sales — markets and sells the Nx1/Hx1 Home Station in the United States
Auralink Nova Technology L.L.C (Reg. No. 1607764)	Dubai, United Arab Emirates	Technology Provider — holds the licence to the Nx1/Hx1 Home Station operating system, integrates it into the Nx1/Hx1 Home Station hardware, provides the Auralink applications, and maintains NovaLink's Dubai office
Community Operators (currently NodeLink BVI, Co. No. 2191069 · HubLink Ltd, Co. No. 2213274 — listed for transparency, without preference)	British Virgin Islands	Operate their own independent community platforms under their own core agreements and carry out global distribution and sales for their communities; participants contract with their Community Operator

How the entities relate to one another is described in Section 7; ownership is described in Section 9.

3. Ntech Link Technologies Ltd — the Store Operator (NovaLink Store)

Field	Detail
Legal name	Ntech Link Technologies Ltd
Entity type	BVI Business Company (company limited by shares)
Jurisdiction of incorporation	British Virgin Islands
Company registration number	2195904
Governing law of the NovaLink Store Terms	Laws of the British Virgin Islands

Field	Detail
Role in the group	Operates the NovaLink Store and payment processing; seller of record for the Nx1/Hx1 Home Station; publishes the Store-side Terms and Conditions and, jointly with Auralink Nova Technology L.L.C, the Privacy and Cookies Policy

Ntech Link Technologies Ltd operates the NovaLink Store — the e-commerce platform through which the Nx1/Hx1 Home Station is sold — together with the payment processors and payment gateways used at checkout. It is the seller of record for purchases made through the NovaLink Store and is the entity referred to as the "Store Operator" in this documentation set, including the Terms and Conditions and the Privacy and Cookies Policy. Ntech Link Technologies Ltd is a BVI Business Company, Company Registration No. 2195904.

4. NodeLink USA, Inc. — US market entry, distribution and sales

6. The Community Operators — NodeLink BVI and HubLink Ltd

The communities served by NovaLink are operated by their own independent legal entities, listed here with the same transparency as the NovaLink entities and without preference. Each Community Operator owns and operates its community platform and domain, publishes its own core agreements (terms and conditions, participation and rewards agreements, privacy policy), and is the entity its participants contract with. NovaLink is the technology and product provider referenced by those agreements.

NodeLink BVI — BVI Business Company, Company Registration No. 2191069. Operates the NodeLink community platform and domain, and carries out global distribution and sales for its community.

HubLink Ltd — BVI Business Company, Company Registration No. 2213274. Operates the HubLink community platform and domain, and carries out global distribution and sales for its community.

Additional Community Operators may be added over time; this Register will be updated as they are.

7. How the entities relate

The group is organised around a clear division of function:

- Auralink Nova Technology L.L.C (Dubai) is the Technology Provider. It holds a licence to the Nx1/Hx1 Home Station operating system (which it does not own or develop), integrates that operating system into the Nx1/Hx1 Home Station hardware, and creates the finished product made available to the Community Platforms. It also provides the Auralink consumer applications and maintains NovaLink's rented office in Dubai.
- Ntech Link Technologies Ltd is the Store Operator. It operates the NovaLink Store e-commerce platform together with the payment processors and payment gateways, and is the seller of record for the Nx1/Hx1 Home Station. It does not contract for community membership, participation or rewards — those are governed by each participant's Community Operator.
- NodeLink USA, Inc. (Delaware) carries out market entry, distribution and sales in the United States, onboarding US participants and selling the Nx1/Hx1 Home Station in the US market.
- The Community Operators — currently NodeLink BVI and HubLink Ltd, listed here for transparency and without preference — each operate their own independent community platform under their own core agreements. Additional Community Operators may be added over time. Participants join and contract with their Community Operator; NovaLink is the technology and product provider referenced by those agreements.

Represented as a simple chain: the operating-system licensor → licenses the Nx1/Hx1 Home Station operating system to → Auralink Nova Technology L.L.C (Technology Provider — integrates the OS into the Nx1/Hx1 Home Station and creates the finished product) → made available through → Ntech Link Technologies Ltd (Store Operator — sells the Nx1/Hx1 Home Station through the NovaLink Store) → purchased by participants of the Community Platforms served by NovaLink. Global distribution and sales are carried out by the Community Operators (currently NodeLink BVI and HubLink Ltd); distribution and sales in the United States are carried out by NodeLink USA, Inc. (Delaware).
